## The professional trade ladder system

This robust and highly versatile 4 tread aluminium ladder system can achieve 19 different working heights across 4 different modes of operation.

Arguably, the only ladder you'll ever need, it offers the following features and benefits:

- Tested and certified to EN 131 for professional trade use
- Strong easy to operate triple locking hinge mechanism (no requirement for stay bars enabling work in the most awkward locations)
- Telescoping stiles locked in position by 4 robust lock tab assemblies
- Splayed legs with slip resistant feet
- Smooth tip and glide wheels to aid transportation
- Robust inner and outer stiles made from aircraft grade aluminium
- All aluminium fully anodised
- Use indoors or outdoors
- Compact for easy transport and storage
- Tough and reliable

## Transforma Modes:

### Extension ladder

- 8 different heights
- Safe working heights  
1.79 – 4.66m

### Extending step ladder

- 4 different heights
- Safe working heights  
1.78 – 2.95m

### Stairway ladder

- 5 different heights -
- Safe working heights  
1.78 – 2.95m

### Trestle with staging mode

- 2 different heights  
0.28 and 0.56m\*

\*This mode is not covered by EN 131 certification. The Transforma telescopic staging is not supplied with the product but can be purchased separately.

## How to switch from mode to mode

- 1 Simultaneously depress the buttons on both hinge locks
- 2 Pull the nearest section of the ladder towards you until it locks into the next position
- 3 Repeat the process to change to the next mode or to close the ladder for storage

## How to adjust height

- 1 Pull out both locking tabs on one side of the ladder
- 2 Slide the outer ladder section down the inner section to the required rung position and ensure both locking tabs are engaged in the rung
- 3 Follow the same procedure from the other side of the ladder

## Technical Specification

|                     |                   |
|---------------------|-------------------|
| Order Code:         | 302330            |
| Closed dimensions:  |                   |
| Length              | 1.4m              |
| Width               | 0.61m             |
| Depth               | 0.2m              |
| Number of sections  | 4                 |
| Rungs per section   | 4                 |
| Duty rating         | 110kg/17.3 stone  |
| Maximum static load | 150kg/23.62 stone |
| Weight              | 17.5kg            |
